The Austrian Association of Municipalities and the Austrian Association of Cities and Towns under the patronage of the Austrian Presidency of the European Union cordially invite you to participate in the local government conference „Strong Communities for a Citizens' Europe“, from 7th-9th of November 2018 in Vienna.

The conference is targeted at representatives of local government Associations in the Alpine and Danube Region. It should enable the exchange of views regarding implications of European and national policies as well as macro regional programmes on the local level. The conference addresses both, Member States as well as Accession States of the European Union.

The priorities of the Austrian Presidency are subsidiarity, transparency, cooperation and more involvement of citizens. Implementing those priorities can be seen as an opportunity for local governments and their active participation in designing the future of Europe. Come and meet us!
